TO EUROPE FOR \$6. MAYBE.  
100 LITTLE JAIL ROOM.  
CATHOLIC ACTIVITY.  
NOT RUNNING DOWN.

By Arthur Brisbane  
(Copyright 1930 By King Features  
Syndicate, Inc.)

HERE is real flying news, im-  
portant to all interested in  
moving about the earth.

Henry Ford has perfected an all-  
metal airplane driven by three  
Packard Diesel motors, burning  
crude oil. The machine is expected  
to carry 11 passengers 100 miles at  
a fuel cost of \$2.16. This means that  
the fuel cost of taking 11 passengers  
across the ocean would be \$64.80,  
less than \$6 each. There is no cost  
for light of way, little for terminals  
and for wear and tear.

WHAT IS MORE important, in  
Ford's opinion, is the fact that fire  
hazards, explosions, carburetor ad-  
justments, electric ignition, all dan-  
gerous elements in flying, are elimi-  
nated.

"The pilot sits in front of an in-  
strument board like that of an au-  
tomobile and takes over a radio-  
phone without interference from the  
motors."

Concerning flying, it is apparent  
that "we haven't seen anything  
yet."

Mr. Mitchell, attorney general,  
warns the senate judi-  
ciary committee that "tur-  
bulent stimulating activities of  
prosecution under any law will  
get us into difficulties." He  
told the committee that in the  
last nine months the number of  
federal prisoners has increased  
by 6,227.

It will comfort bootleggers  
and their associates to know  
that if more of them are locked  
up the government will hardly  
know what to do with them.

HENRY H. CURRAN, head of  
the Association, says three Ameri-  
cans out of every four are in revolt  
against prohibition, and the mem-  
bership of his association is in-  
creasing 1,000 a day.

That increase doubtless does ex-  
ist but it is not true that three  
Americans in every four are in re-  
volt against prohibition. Straw  
votes do not tell any story com-  
pletely.

Many will vote as they feel in  
straw votes, then vote as they think  
they ought to vote in a real elec-  
tion.

UNITED STATES authorities  
say that one group of bootleggers  
in New York deposited about a mil-  
lion dollars recently. One member  
of the organization, mentioned as a  
"driver," deposited in the New  
York Bank of America \$572,678 in  
10 months.

It seems to be a prosperous busi-  
ness.

The Catholic directory for  
1930 shows that Catholic popu-  
lation in the United States, not  
including Alaska and island  
territories, is 20,078,202.

There are 2,448,571 children  
in Catholic parochial schools;  
38,232 were converted into the  
Catholic faith last year.

Some 100,000 persons are  
taken care of daily in 624  
Catholic hospitals and clinics.

There are 329 Catholic or-  
phan asylums that take care of  
51,523 orphans, and 142 homes  
for the aged.

It is an active church, hard-  
working, far-seeing, patient,  
when necessary.

MR. LEVAND'S Wichita Beacon,  
which describes itself as "Kansas'  
greatest newspaper," prints a state-  
ment by Professor Milikan which  
will please you.

Just a great English astronomer,  
is wrong, says Milikan. The uni-  
verse is not "running down" like a  
clock with nobody to wind it.

PROBABLY YOU HAVE worried  
about that. On earth, clocks  
are rewound. We take it for granted  
that the power that wound up this  
universe originally will know how  
to wind it up again, after the pres-  
ent galaxies, nebulae, solar systems  
and tiny planets shall have used  
up their energy.

cial business meeting of the Salem  
High School Alumni association in

for last Friday, was postponed be-  
cause of lack of a quorum to trans-  
act necessary business.

at the Memorial building in June.  
Past officers and the incoming of-  
ficials will be present.

## CHICAGO GANGLAND NOW UNITED UNDER ONE LEADER, REPORT

Al Capone And Bugs Moran Claimed To Be At Peace  
With Al Heading Combination Of Gangsters  
Control All Chicago's Vice

(By The Associated Press)  
CHICAGO, April 17.—A union of  
Chicago's warring gangs under the  
single leadership of Al (Scarface)  
Capone was understood today to  
have been effected.

The amalgamation of the Capone  
and George (Bugs) Moran factions,  
heretofore at odds with each other  
over liquor, gambling and vice traf-  
fic, has for its reported purposes:

(1)—The ending of gang gunnery,  
which has been responsible for hun-  
dreds of deaths in Chicago during  
recent years; and

(2)—The coordinating of all ma-  
jor gang enterprises for purposes of  
increased power and profits.

The peace agreement was reported  
by the Herald and Examiner as hav-  
ing been secretly signed following  
conferences at Capone headquarters  
at Twenty-Second street and Michi-  
gan avenue.

Celebrate Agreement  
Last night the agreement, bind-  
ing members of several warring  
gangs into one large gang, was  
celebrated at numerous places where  
the more prominent gang members  
congregate. The Herald and Exam-  
iner said these parties were attend-  
ed by lesser lights of both the  
Capone and Moran gangs, with  
Capone men in the majority. The  
Moran celebration of the ratification  
is planned for a later date.

Under one leadership the most im-  
portant gang men of Chicago, it is  
not entirely representative. Neither  
William (Kiondike) O'Donnel nor  
Ralph Schell, each mentioned fre-  
quently in west side gang affairs,  
is included in the gang union. The  
theory of Capone and Moran men,  
however, was reported as being that  
the new organization, because of its  
greater power, would be able to  
crush out any lesser group that  
might arise to challenge it.

Gangs Were Divided  
Under the old scheme of things,  
as police often have outlined, the  
city has been divided by the gangs  
for the gambling, liquor and vice  
"privileges." The loop, for example,  
is generally understood to be under  
the control of the Capone gang so  
far as liquor and gambling are con-  
cerned. Loop speakeasies are com-  
pelled to buy "Capone beer" and  
whiskey, or if they insist upon get-  
ting their supplies elsewhere, they  
must pay a certain percentage to

Will Assist Navigating At  
High Altitudes; Use  
Aviation Sextant

TO SURVEY ROUTE  
HIGH ABOVE EARTH

Will Make One Stop On  
Coast To Coast Trip;  
No Record Sought

(By The Associated Press)  
LOS ANGELES, April 17.—Mrs.  
Charles A. Lindbergh, the former  
Anne Morrow, will actively assist  
her husband, the famous flying col-  
onel, in the couple's contemplated  
one-stop experimental high altitude  
transcontinental air trip to New York.

While preparing for the flight, ex-  
pected to begin within a few days,  
Col. Lindbergh said that his wife  
would be his navigating assistant.

"If we encounter storm areas at  
high altitudes," Col. Lindbergh said,  
"we plan to continue by celestial  
navigation. We are equipped for  
that with an aviation sextant. Mrs.  
Lindbergh will make the observa-  
tions."

"Our speed at high altitudes will  
be computed from the drift indi-  
cator on the plane. We will seek  
altitudes anywhere from 10,000 to  
20,000 feet to test the possibilities of  
high air currents for commercial  
passenger flights."

Tests Being Made  
Free balloon tests of high altitude  
wind currents are being made daily,  
the colonel said, by T. A. T.—Mad-  
dux air lines and government  
weather and radio stations at scat-  
tered points along the route. Re-  
ports of these tests will be compiled  
just before the flight in an effort to  
assist in locating the fastest high  
current of air.

Col. Lindbergh said he wished to  
emphasize that the flight is not  
planned for a speed record, but  
chiefly to aid transport flying. He  
pointed out that conclusions of last-  
year benefit could not be made from  
one step, and that the first experi-  
ment is to be made because he be-  
lieves that fast express and pas-  
senger planes will make increasing  
use in the future of altitudes above  
10,000 feet. The flight also is de-  
signed to test a new super-charger,  
necessary equipment for planes  
flying at higher altitudes.

No definite date has been set for  
the start in the trip.

The one stop for fueling and  
weather reports will be made at  
Wichita, Kas.

Teacher Indicted  
On Assault Count

ELYRIA, O., April 17.—Mrs.  
Myrtle Bradley, 22, Russia township  
school teacher, today was under  
indictment on a charge of assault  
and battery for whipping 7-year-old  
Mary Gerhardinger, one of her pu-  
pils.

Mrs. Bradley will be arraigned  
Monday. The indictment was re-  
turned by the Lorain county grand  
jury late yesterday after hearing  
evidence of the child's parents and  
a physician that she had been  
whipped with a heavy wooden pad-  
dle and that she was injured prob-  
ably with permanent impairment  
of her health.

Mrs. Bradley has admitted the  
whipping but pleaded justification.

Mrs. Hoover Hurt  
Slightly In Fall

WASHINGTON, April 17.—Mrs.  
Hoover is suffering from a wrenched  
back which, although painful, is de-  
scribed by Captain Joel T. Boone,  
the White House physician, as not  
at all serious.

She received the injury, he said,  
in a fall yesterday in her living  
room, and explained that it was for  
this reason that she declined upon  
a couch when she received the chil-  
dren of the American Revolution  
late in the day.

Mrs. Hoover had been suffering  
from a cold for several days, but  
this, Dr. Boone said, was much im-  
proved.

ticed law here for 39 years, part of  
the time serving as county prose-

Large Group Of  
Newspapers In  
Ohio To Merge

Thirty-Two Publications  
Already Optioned  
Report States

(By The Associated Press)  
CINCINNATI, April 17.—The Cin-  
cinnati Enquirer today said that a  
million dollar chain of weekly, bi-  
weekly and small daily newspapers  
is being formed in Ohio with 32  
publications already under option  
as the nucleus of the organization.

The Enquirer stated that Ohio  
News, Inc., chartered at Columbus  
last week by three Cincinnati at-  
torneys, holds the options thus far  
obtained and is expected to have  
general management of the chain.

Ohio News, Inc., was chartered by  
Charles Sawyer, F. W. Smith and  
R. W. Todd, Cincinnati attorneys,  
to "purchase, acquire and operate  
newspaper properties and to print,  
publish and deal in newspapers,  
books, maps, pamphlets, periodicals  
and other publications."

William Cooper, Proctor, Cincin-  
nati manufacturer, denied that he  
had purchased any papers when ad-  
vised of reports that he was back-  
ing the chain.

Sale of two St. Clairsville week-  
lies, the Gazette and the Chronicle,  
was scheduled to be completed to-  
day, according to W. J. Walker, part  
owner of the Chronicle. Walker  
said the purchases were negotiated  
by Charles A. Bond, former mayor  
of Columbus, representing a syn-  
dicate of Cleveland, Columbus and  
Cincinnati men.

Thomas W. Elyar, son of W. A.  
Elyar, publisher of the Georgetown  
News Democrat and the People's  
Defender, said that Bond reported  
obtaining options on papers at Ba-  
tavia, Hillsboro, Caldwell and Cadiz  
besides St. Clairsville.

THE WORLD COURT

The Daughters of the American Revolution is not on record as being opposed to the World Court, but its aversion to "entangling alliances" is well known. Mrs. Ruth Hanna McCormick and former Senator James A. Reed of Missouri, both avowed opponents of the court, have been invited to speak in behalf of the D. A. R., a fact which has strengthened popular belief that the organization opposes the entrance of the United States into an international tribunal.

It was, therefore, with some trepidation that members attending the Thirty-Ninth Continental Congress of the D. A. R. awaited President Hoover's address Monday night. Would he please the D. A. R. or would he speak as a Quaker President who has urged his country to contribute to the cause of world peace by entering the World Court?

Mr. Hoover stood by his guns. The United States has helped establish the World Court. It is honor-bound to join it because of the very fact that its own security is assured to a greater degree than that of its neighbors.

Furthermore, the great body of international law and precedent demand interpretation which only a World Court can give. It is as unthinkable to try insuring world amity without an official court as it would be to try insuring civil, state or federal amity without a judicial system.

These things and many more of a similar tone were the substance of Mr. Hoover's address to an organization which, true to its origin, stands for national defense and a self-sufficient country aloof from international entanglements. His listeners applauded as the President concluded.

"For the American people want peace in the world not alone as a matter of material interest to our prosperity and welfare, but because gains to the moral and spiritual forces of the world are made through peace and not through war."

The issue of the World Court has been reopened widely in this country by Mrs. McCormick's victory in the Illinois primaries for senator on the Republican ticket. She conducted her campaign on a platform containing an anti-World Court plank and was victorious. Her victory, however, is not proof that Illinois is unfavorable to the court and it certainly has no bearing on the national attitude.

It must be remembered that Mrs. McCormick's supporters were interested also in her candidacy as a woman, somewhat of a novelty in national politics, and that she had manifested a reasonably definite stand supporting prohibition. Furthermore, responsible interpreters of national politics have pointed out that any candidate could use the World Court to his political advantage if he took a negative stand. It is a truism that an issue involving something controversial, and on which there is scant information will poll an unfavorable vote.

It has worked for Mrs. McCormick and it will work again. People reason that it is better to stand still or back up than to go forward without perfect assurance.

That assurance in the matter of the World Court must come from the unflinching faith of influential leaders who believe in its ability to promote the cause of world peace.

In a large sense, support for the court can only be engendered by the realization that "the moral and spiritual forces of the world," as they are described by President Hoover, are fully as important as "material interests to our prosperity and welfare."

Another minor domestic tragedy occurs when the can opener cannot be found.—Louisville Times.

## THE LOBBY BUGABOO

One of the terms which has acquired an incidental ill repute in political developments of the past decade is "lobbying."

It has been pointed out frequently, but to no great avail, that democratic government is dependent upon lobbying to a large extent.

Abuse of the system, however, has been so general as to condemn it, temporarily at least.

The Senate committee investigating lobbies is responsible in no small measure for the disgrace into which lobbying has fallen.

Justified in many instances, the investigations have been conducted in such a way as to make it appear that the system itself is at fault.

The supreme court, however, in the case of Marshall versus the Baltimore and Ohio Railway Co., recognized that lobbying may be both legitimate and ethical. It held that:

All persons whose interests may in any way be affected by any public or private act of the legislature have an undoubted right to urge their claims and arguments either in person or by counsel professing to act for them before legislative committees as well as before courts of justice.

At the same time the court declared that lobbyists should "honestly appear in their true characters" to "those before whom they plead or solicit." A hired advocate or agent assuming to act in a different character is practicing fraud and deception.

There is a discrepancy existing between the definition of lobbying and a lobbyist in the Caraway lobby registration bill, which passed the House but not the Senate in 1928.

A lobbyist is defined therein as "one who shall engage for pay to attempt to influence legislation by the national Congress." Lobbying, however, is defined as "any effort to influence the action of Congress upon any matter coming before it, whether it be by distributing literature, appearing before committees of Congress, or interviewing or seeking to interview individual members of either the House of Representatives or the Senate."

The fact that this includes legitimate as well as unethical activities of organized groups in the capital and that both have been placed in question by the investigating committee probably accounts for the widespread disapproval which the term arouses.

There are, it has been estimated, several thousand lobbyists stationed at Washington.

Many of them are invaluable to the efficient procedure of government. They are in possession of facts which the congressman who represents their state cannot procure in any other way, perhaps.

They act as points of contact between the voters and their representatives in government.

In consideration of these facts, it is necessary that no blanket indictment be made against lobbying and lobbyists, as long as they are held within their prescribed areas.

"Boredom," according to George Francis Whitcomb, "is the child of perfect understanding." Too bad, George, too bad! Why didn't you spring that long years ago on a world striving to gain wisdom?

## What Others Say

THE FOLLY OF PISTOL LAWS

The author of a bill to restrict still further the possession of or use of pistols by citizens has sensibly withdrawn it from the New York legislature. That state's Sullivan law, forbidding any person to own a pistol unless he holds a special permit to do so, has notoriously handicapped honest men without in any way hindering the bandits, although the intention of the legislature that passed it was just the other way around. The additional bill, now withdrawn, would have forbidden the carrying of a pistol, even by a man holding a special permit to own one.

All anti-pistol bills—and Minnesota saw one or more offered at nearly every session of the legislature—are based on the faulty assumption that professional crooks will obey such a law. As a matter of fact, honest men obey the anti-pistol laws, but crooks never do. One crime more or less is nothing to a crook. So a legislative ban on pistols inevitably means that bandits will continue to be armed as usual, but that fewer honest men will be armed to resist them.

There is one way, seldom drastically employed anywhere to reduce the incidence of pistol crimes. Search known racketeers, gangsters, professional idlers and other soft-handed vagrants for pistols, and then jail those that are armed. Virtually every state has laws against carrying concealed weapons. Enforce these laws drastically against men and youths who are well supplied with money, but whose means of support are not only invisible but downright suspicious.—Minneapolis Journal.

### INFANTILE PARALYSIS

Children go through many troubles before they grow to maturity. Many diseases bring misery to them. One of the worst of these is infantile paralysis, or, as the doctors call it, "poliomyelitis."

Fortunately few children are susceptible to this disease. More than three-fourths of the cases are met in the first two or three years of life. It may come at any age, even to grownups, but as I have said, most children are immune.

It is really a terrible disease. The paralysis leaves too many of the little ones crippled for life.

The attack comes without warning. The child is taken suddenly with vomiting, fever, headache and extreme agitation. After these acute symptoms have abated the paralysis is discovered. The damage is likely to affect the lower extremities. One leg or both may be involved. Sometimes other parts of the body are attacked.

There are several types of infantile paralysis. One is of the brain type. The latter is the more common form.

A child with this disease should be isolated.

This is done for safety's sake, even though there is doubt that it may be transmitted to others. All the body excretions, including secretions from nose and mouth, should be burned.

At first, in the progress of the disease there is complete paralysis, and motion is not possible. After a few weeks or months the muscles grow stronger, but whatever paralysis is left after this time is apt to remain permanently. There is a withering of the limb and it grows smaller. Walking is very difficult.

There are some things which are helpful in regaining muscle control. Massage, electricity, baths, sprays and other stimulating applications are helpful in removing the effects of infantile paralysis.

Many children are crippled every year, by this malady. But there is always a bright spot in every picture. I was reading the other day of work being carried on by the Board of Education of New York City to help crippled children at home. Many of these lame children in the city are helped in a most practical and tender way, by being provided with special educational facilities. When necessary they are carried to school, where they are under special supervision for their physical defects and given instruction too.

Even more striking is the fact that teachers are sent into the homes of the crippled where their infirmities make it impossible for them to be taken to school. More money is needed for more teachers. The public should be willing to help in this work, which was taken over by the Board of Education after the last epidemic of poliomyelitis. At that time in New York some 600 children were left "home-bound" by this disease. What a wonderful work this is for the crippled children of the city.

It has been thought by some investigators that this disease has been carried through contaminated milk. If this be true, then it behooves every parent to see that their children are provided with pure clean milk. The extra expense of the best milk may be taken from some of the luxuries if necessary, but the children should have only the best milk and the best food possible. Clean milk, good food, clean surroundings, plenty of fresh air and sunshine will help to rout the forces of disease. Every child is entitled to these.

## Highlights Of Ohio History

By J. H. GALBRAITH

But for a blunder on the part of a committee and an accident on the part of George Hoadley, afterward governor of the state, made at a convention of Liberal Republicans with tariff reform leading early in May 1872, Charles Francis Adams instead of Horace Greeley might have been the opponent of Grant in the campaign of that year—and quite possibly elected. The call had been issued vaguely, but the committee on arrangements had planned to exclude avowed protectionists. The committee on credentials, however, in spite of instructions from the arrangements committee, admitted the New York delegation, known to be protectionists, and the leaders of the movement knew from that moment that their plans were defeated.

Governor Hoadley, who was present, though a delegate to an anti-out tariff for revenue only convention which was assembling in another hall of the city started over to the latter convention, at once, but on the way turned back to find out whom the Liberal Republicans should select for their vice presidential candidate. When he reached the Anti-Protectionist convention later a motion was just being put by the chair to adjourn to meet again at the call of the chair—the reason given being that a larger proportion of the states could be represented at a subsequent meeting, there being only 11 represented at that time. The motion was declared carried.

Governor Hoadley had decided in his own mind that the thing for the anti-protectionist convention to do then was to nominate Charles Francis Adams and if he had reached the convention hall in time it was at least possible that his earnest-

ness and ability as an orator would have defeated the motion to adjourn.

Of course, if Adams had been selected at Cincinnati, the probability would have been that the Democrats in their convention at Baltimore would have endorsed his nomination as they did that of Greeley, and since he would have been acceptable alike to the Liberal Republicans and the anti-protectionists he would have had a decidedly stronger appeal to the voters than Greeley had.

## The Stars Say—

For Friday April 18

The sidereal operations for this day assist to excellent opportunities for forging ahead to very high achievement in employment, as well as in the launching of new projects. All affairs should be pushed to the desired goals, with preference and assistance of those in powerful places assured by way of personal as well as business preference. But it might be well to be careful in signing all writings and to preserve harmony in domestic, social and affectional relations.

Those whose birthdate is May plan for a year of excellent opportunities in employment and in all sorts of new undertakings. They may seek promotion, preferment and the assistance of those in places of power and authority, but it is advisable to be careful in the signing of all contracts and writings. Also chafe friction and inharmonious in the personal relations.

A child born on this day should be excellently talented and endowed for success and progress in life, with assurance of personal popularity and good social position.

NEW HAVEN—The march of progress at Yale is to spare Mory's, noted in other days for its beer. As a symbol of Yale's past, the old building, which houses souvenirs of notable, such as initials on tables is to be spared as new buildings go up. Once Mrs. Moriarty's restaurant, it is now a student eating club.

How I coaxed him to eat!

ONCE I was worried. Meal-time was getting on my nerves. I prepared many appetizing dishes, but John simply would not eat—just 'minced' at his food. Perhaps sometimes a little grouchy. I began to fear he was 'slipping.' What was I to do? Love, home, happiness, business success—all depended upon an improvement in his condition. The blood-tonic idea suggested itself to me. My Druggist recommended S.S.S. He told me that S.S.S. was a great blood tonic; that it had been successful for over 100 years; that it was made from strictly fresh vegetable drugs and was beneficial to the most delicate system. Also that it would build up the blood and improve the processes by which the body is nourished. I brought home a large size bottle. John agreed to try it. Well, in just a few days I could see the difference. His improvement has been so rapid he is going to take several more bottles, and not only that, but he is now telling his friends to take S.S.S.

It is a known fact that when a man's system gets "run-down," he hasn't the resistance to ward off diseases. Loss of appetite is only a symptom. General weakness pervades the entire body. There is no desire to work or play. It is dangerous to let the red-blood-count remain below normal.

S.S.S. is daily helping people to regain their strength. Thousands of users have testified to its benefits in unsolicited letters of gratitude. It promotes a keen appetite, gives vitality to the body, clears the skin and wards off diseases. All Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

## INQUIRY WITNESS MAY HAVE BEEN KILLED, BELIEF

Poison Found In Body Of  
Auto Crash Victim;  
Want Inquest

(By The Associated Press)

LOS ANGELES, April 17.—An inquest to determine whether Robert Burian, district attorney's under-cover agent, was poisoned to prevent his appearance before the grand jury to testify in the latest Julian petroleum corporation investigation or whether his death was the result of an automobile accident was called here today.

Blaney Matthews, chief investigator of the district attorney's staff, disclosed last night that a drinking glass containing poison was found in the wreckage of the automobile in which Burian's body was found early Tuesday morning. County Autopsy Surgeon Frank Webb announced a preliminary autopsy revealed the presence of poison in his stomach was indicated.

Shortly after the body was found District Attorney Buron Pitts said the 31-year-old bookkeeper was a secret investigator for his office. He said Burian had been working on angles of the Julian investigation, and at the time of his death was on a "very dangerous mission" connected with an alleged bribery plot involving political and financial figures.

Not convinced that Burian's death was entirely accidental, Pitts ordered an immediate probe of circumstances surrounding the case.

Matthews said it definitely was known where Burian was and what he was doing shortly before his death, and that at least three of his companions are being sought for questioning.

A search also has been started for a pistol the investigator is known to have carried. The gun was not found in the wreckage of his car.

## FOG RESULTS IN PLAIN ACCIDENT

Flier And Wife Killed As Craft  
Crashes Into Earth; Two

HAYS, KAN., April 17.—Fog, the enemy of aviation, has claimed at least two additional lives, the result of a plane crash here yesterday. A. J. (Steve) Lucey, 27, Wichita, Kas., test pilot, and exhibition flyer, and his wife, 29, died following the fall of a plane piloted by the aviator. Russell Guild, 22, of Holyoke, Colo., is in a critical condition in a Hays hospital. Dr. H. C. Hill, also of Holyoke, the fourth occupant of the plane, less seriously hurt also is receiving hospital treatment.

According to Dr. Hill, the pilot apparently lost his sense of direction after flying for 20 minutes in a dense fog, and headed the airplane into the ground. The plane plunged 3,200 feet and buried itself in a pasture.

## PARKER PROTEST WILL BE HEARD

Monday Set As Day For  
Confirmation Of  
New Justice

WASHINGTON, April 17.—A move for action on the nomination of Judge John J. Parker as an associate justice of the supreme court is to be made in the senate judiciary committee next Monday by Senator Overman, Democrat, North Carolina.

Overman, who is supporting the nominee, was chairman of a subcommittee which heard the protests of organized labor and of negro organizations against the confirmation of the nomination. Judge Parker is a prominent citizen of his state but, unlike the Senator, is a Republican.

The protests against Parker and President Hoover's determination to stand by his nominee have created some concern among administration leaders.

Senator Patterson, Republican, Missouri, late yesterday announced the receipt of a telegram from B. G. Voorhees, Republican state chairman of Missouri, vigorously opposing the nominee.

Confirmation in Voorhees' opinion would mean "that the Republican party might just as well say goodbye to Missouri for the next two or three elections at least."

## CHURCH TO HOLD SUNRISE SERVICE

## A Few Cents For Good Light

makes better report cards

EVENING study at its best is hard for  
children. They become tired and  
drowsy when they must strain their eyes  
in light that is dim or glaring. Children  
who suffer from eyestrain are retarded  
in school.

When good eyes mean so much and good  
light is so cheap why try to economize?  
A few cents an evening will pay for all  
you use.

The peace agreement provides that all income from gambling, liquor distribution and vice resorts must be paid into a common "community chest." Out of this "chest" will be paid the profits as well as whatever protection funds are needed.

It was understood also that arrangements were being made to revamp the protection system to avoid its being scattered indiscriminately among many persons. The plan calls for payment only to certain selected individuals with power great enough to handle smaller fry.

## GANDHI DESIRES MORE SUPPORT IN RESISTANCE

Claims Passive Attitude Has Great Effect On British

(By The Associated Press) BOMBAY, April 17.—Mahatma Gandhi, Indian nationalist leader, called upon his fellow-citizens today for an even more intense non-violent resistance to British authority if independence for India is to be won.

"If we are to stand the final heat of battle," he said, "we must learn to stand our ground in the face of cavalry and baton charges. We must allow ourselves to be trampled under horses' hoofs and bruised with baton charges."

His appeal was contained in an editorial in "Young India," his newspaper, under the head "A Survey."

The mass manifestation (salt law disobedience) in Gujarat exceeded all expectations. Bombay and its suburbs have done no less. Reports coming to me from all over India are fully encouraging. That mass non-violence is a perfect possibility has been sufficiently demonstrated during the past eight days," declared Gandhi.

NEW DELHI, India, April 17.—Mahatma Gandhi's son, Davi Das Gandhi, and Shankar Lal, who were arrested at Salempur April 9, today were sentenced to three months simple imprisonment for violation of the salt laws in connection with the civil disobedience campaign.

Ten others arrested at the same time were sentenced to three months rigorous imprisonment.

KARACHI, India, April 17.—This city was quiet today after bitter fighting yesterday in which British troops fired on a mob of thousands gathered outside the courthouse in protest against arrest and trial of six of the civil disobedience campaign leaders.

A check today showed that one was killed in the fighting, 11 seriously injured and 45 others injured so as to seek treatment at the hospitals. These included 17 police. The dead man was an Indian civilian.

Considerable criticism of government handling of the mob was heard. It was said that the impending demonstration was a matter of common knowledge but that the authorities, in pursuance of the government's conciliatory policy, did nothing to forestall possible trouble.

LOOK, JOHN—WHAT SNOWY WHITE CLOTHES! ALL I DID WAS TO SOAK THEM

No wonder Mrs. White threw away her washboard

When I think of how I used to scrub! Now I just make a tub of thick Rinsos—soak—and rinse! That's all. No washboard. No boiler. It's easy the Rinsos way, and clothes come much whiter.

"Rinsos saves the clothes and spares my hands. It's a real economical soap. I use it for dishes, too."

Great in washers

Cup for cup, Rinsos gives twice as much suds as lightweight, puffed-up soaps—it's so compact. Rich, lasting suds, even in the hardest water. And it's all you need—no bar soaps, chips, powders, softeners.

The makers of 28 leading washers recommend Rinsos. You can trust your finest cottons and linens to its creamy suds. Get the BIG package today.

## MARKETS

**PRICE TRENDS DIVERGENT**  
NEW YORK, April 17.—Price trends were divergent and confusing in today's stock market, as bulls struggled to maintain a firm market in the face of heavy profit taking and liquidation in advance of three-day Easter closing. Trading was in somewhat reduced volume.

Operations for the advance were concentrated in high priced and volatile stocks. Bullish activity in pivotal shares generally met with heavy selling. American Machine and Foundry shot up 16 points to a new high, and Case 8. Houston Oil, Auburn Auto, Allied Chemical, Eastman Kodak and Vanadium rose 3 to more than 4 points.

Rails were under pressure. Boston and Maine lost 3 points, and Chesapeake and Ohio and Pere Marquette about 2. Johna Manville declined 3 points, and U. S. Steel 2½. American Telephone and Fox Film sold off a couple of points, then rallied.

Call money renewed unchanged at 4 per cent.

CHICAGO, April 17.—Wheat prices underwent a material setback today after a show of firmness at the start. Starting unchanged to 5-8 higher, wheat afterward dropped below yesterday's finish. Corn and oats weakened also, with corn opening 1-4 off to 1-4 up, and subsequently showing a general sag. Provisions tended upward.

## CHURCH AUDITOR BULLET VICTIM; SUSPECT SLAYER

Had Reported "Juggled"  
Loan To Officials  
Before Death

(By The Associated Press)  
SCOTTSDALE, IND., April 17.—  
Enemies within the church were  
blamed by authorities today for the  
slaying of Edward D. Pierson, Chi-  
cago Negro and auditor for the Na-  
tional Baptist convention.

Pierson was found in the Mus-  
catuck river, near Scottsburg, Ind.,  
yesterday. Three fishermen  
heard his faint cries for help and  
found him feebly clinging to the  
branches of a tree. He died soon af-  
ter he was rescued. There were six  
bullet wounds in his body. His  
hands and feet were bound and two  
traveling bags were weighted about  
his neck.

Members of the family said Pierson  
had frequently found irregular-  
ities in accounts of the Negro  
churches comprising the National  
Baptist convention and expressed  
the belief that "someone was hired  
to kill him."

Chicago police, aiding in the in-  
vestigation, said Pierson had been  
"put on the spot and taken for a  
ride."

**Finds "Juggled" Loan**  
Pierson went to Nashville, Tenn.,  
March 30 to audit the books of the  
convention office there. He left  
there Tuesday evening for Colum-  
bus, O., intending to stop first at  
Louisville, his secretary said.

In Nashville, the secretary, Alma  
Overton, said the auditor carried  
with him a report of the condition  
of the Nashville office of the con-  
vention. Roy Darden, of the Tennessee  
attorney general's office, said Pierson  
had found that a loan of \$62,000  
to the Nashville office had been  
"juggled," and that he was prepar-  
ing to report this to the general of-  
fices of the convention in Chicago.

Scottsburg is on a main Louisville-  
Indianapolis highway. It is believed  
by Chicago police that Pierson's  
enemies "put him on the spot" in  
Louisville and then headed north in  
an automobile.

A man and two boys, inspecting  
their fish lines, found Pierson in the  
river near the highway bridge.

His brief case, in which his wife  
said he always carried his auditing  
reports, was missing. A diamond  
stickpin and a watch were also  
gone, but \$50 in money was found in  
the auditor's pocket.

**Gets Long Sentence**  
MARYSVILLE, April 17.—Sen-  
tence of 10 to 25 years in Ohio peni-  
tentiary on a charge of robbing a  
filling station at New California, O.,  
was given William W. Parker, 28,  
Columbus, by Judge Edward Porter  
yesterday. Officials say he served a  
previous penitentiary term from  
Clark county for automobile steal-  
ing.

**Tuning in on  
the Talkies**  
by Walhill

IN Shakespeare's day Richard III  
would have vainly cried: "A  
screen, a screen, my kingdom for a  
screen."

And now that we have motors  
and movies he would have diffi-  
culty in finding the horse he then  
craved.

"The Girl of Tomorrow" may be  
"The Girl of Tomorrow" reborn as  
a talkie.

Movie magnates deal in large  
figures. Warner Bros. put 5,000  
players on the screen in "No-  
ah's Ark" and now they have  
put "Fifty Million French-  
men" on the New York  
stage.

Nora Lane,  
in "The Man  
Hunter," will  
be Rita Tin  
Tin's leading  
lady. And she  
will not use a leash.

Monte Blue will choose "His  
Woman" from a duo of screen  
queens—Lila Lee and Betty Com-  
pton.

**Looking for Trouble**  
Results will be as per usual when  
"Sweethearts and Wives" meet in  
the talkies.

**Talking About Talkies**  
"Sweet Kitty Bellairs" will be re-  
vealed by Warner Bros. in natural  
color.

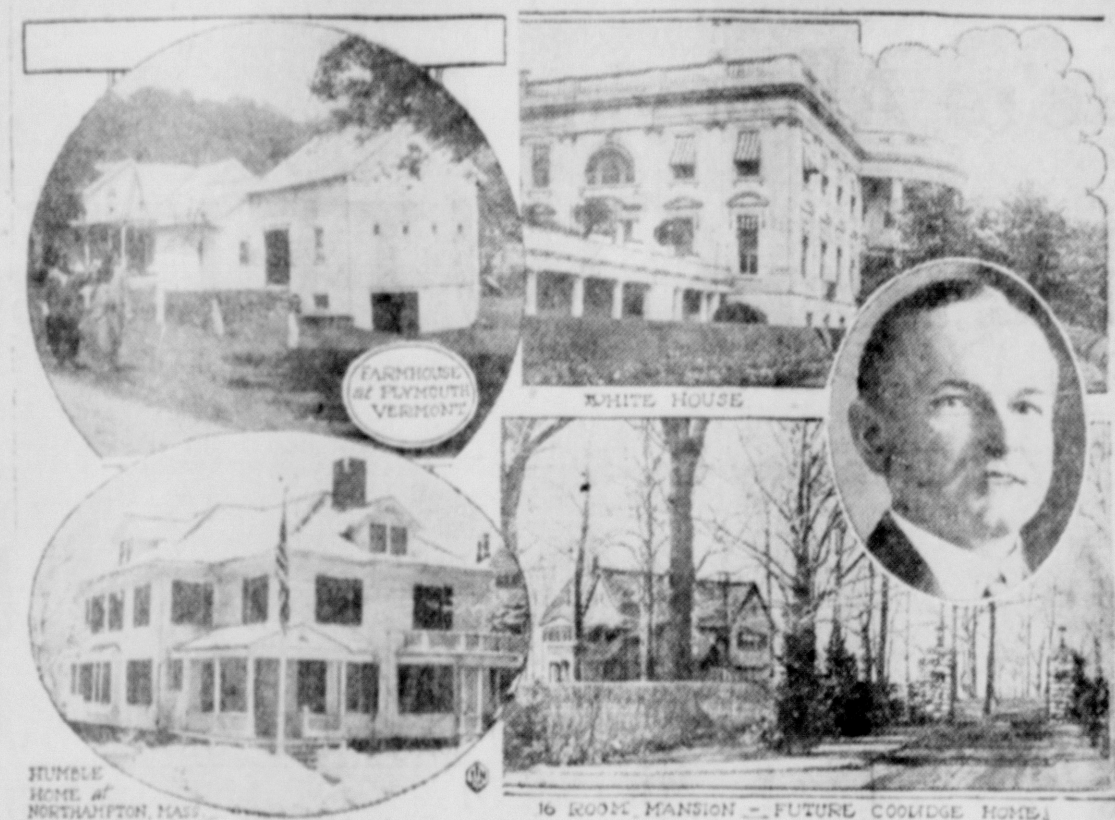

"Show Girl in Hollywood" will  
be First National's Easter gift to  
the screen.

George Arliss is lost to what is  
left of the stage through a long-  
term contract for Vitaphone pic-  
tures.

**For "Double Feature" Day**  
"Did Adam Marry Eve?"  
"Why Bring That Up?"

**Fence-Rail Talkies**  
Farmer Silo says: "We've had  
talkies in this neighborhood since  
before I was born; only we call 'em  
quiltin' bees."

## Humble Home to Palatial Mansion

Another instance of the rise of a great American  
is manifest in the life of Calvin Coolidge, former  
President of the United States. Above illustration  
shows the little farm house at Plymouth,  
Vermont, where Calvin Coolidge was born and  
where later he was sworn in as the 30th President  
of the United States, which carried him to the  
White House. Despite the request of his party,  
he returned again to the little two-story home at  
Northampton, Mass. Now comes the announce-  
ment that, seeking greater privacy, the former  
President has purchased a 16-room mansion at  
Northampton, Mass., where he plans to lead the  
life of a private citizen.

## MOVIES In Playhouses Of Salem

**"NOT SO DUMB"**  
At The State

King Vidor, who has been called  
the Mideas of the screen, directed  
Marion Davies in her new comedy,  
"Not So Dumb," which will open  
tonight at the State theater.

The new talking picture is based  
upon the Broadway stage hit,  
"Dulcy," written by George S.  
Kaufman and Marc Connelly, in  
which Lynn Fontaine created the  
title characterization and which  
Constance Talmadge later por-  
trayed on the silent screen.

The cast in the picture is note-  
worthy. Opposite Miss Davies is  
Elliott Nugent, popular Broadway  
juvenile, who made his film debut  
in "So This Is College." The brother  
role is played by Raymond Hack-  
ett, William Holden, as the old  
jerk, and Hadden, as the old  
jerk's wife, will be remem-  
bered for his striking portrayal in  
"Wear Your Heart on Your Sleeve."  
Julia Payne, who last was seen  
in "Dynamite," plays the part of  
Holden's wife, and Franklin Pang-  
born, stage comedian, has the part  
of a scenario writer.

None other than the Donald O-  
rden Stewart, noted humorist and  
star of the play "Holiday," plays  
the role of a lunatic. Sally Starr, new-  
est flapper find, is cast as Angela.  
George Davis is a burling butler.

**"THE SAP"**  
At The Grand

Every small town boy dreams of  
the day when he will come back  
home and be met at the station by  
the hand. It happens often enough  
in real life to keep the hope that  
it may happen again even before  
the new generation.

"The Sap" was one of these small  
towners who counted on some day

## A Way To Stop Attacks Of Fits

Reports are received of an am-

has proved successful in stopping  
their attacks. R. Lepo, Apt. 62

been supplying sufferers with this  
treatment. He now wishes to reach

setting his town on its collective ear  
by his success. How he did it, after  
exiting hurriedly, and in not too  
good repute, is the story of "The  
Sap."

But Small is met at the depot  
with the band all right, but there  
are a few in the crowd that know  
how narrowly he has missed being  
met by the sheriff and a shotgun  
squad, as a desperate character.  
Somewhat on the theory that he  
who steals a railroad is a hero, the  
town welcomed its ne'er-do-well in-  
ventor as a genius.

Edward Everett Horton plays the  
title role of "The Sap," and an all-  
star cast supports him, including  
Alan Hale, Franklin Pangborn, Ed-

# Twenty Schools To Compete In Night Relays Here April 26

## Plans For Event Near Completion; 19 Teams Already File Entries

Twenty Ohio high schools, the state leading athletes, will bring track teams to Reilly athletic stadium for the first annual relay carnival scheduled here Saturday, April 26 with Salem High as host.

Nineteen schools have already filed entries with W. J. Springer, Salem principal, while the competition is expected to involve at least one more before entries close. Five teams entered the meet this week, 14 having been entered previously.

Cleveland John Adams High, touted as one of the outstanding track and field aggregations in the Cuyahoga county district, is one of the late entries. John Adams is coached by Ray Knesal, former coach and principal at East Palestine high.

The Cleveland school will include in its track squad two high jumpers who are reported to have exceeded heights of six feet in leaps last year, and a mile-runner of note. The complete list of schools entered to date follows:

Massillon, Cleveland John Adams, New Philadelphia, Wooster, Boardman, Alliance, Columbian East Palestine, Warren, Canton McKinley, Leetonia, Akron Garfield, Niles McKinley, Cortland, Youngstown Rayen, Akron East and Salem.

## More Evidence Of Rare Merit Of New Konjola

Lady Suffered For Years—Could Not Eat A Meal Without Distress—Modern Medicine Wins Triumph.

MRS. ARENA BORDEN

"Konjola proved to me that it is deserving of all the wonderful praise it is getting," said Mrs. Arena Borden, R. F. D. No. 2, Leesburg, Ohio. "A severe case of stomach trouble has been the source of constant misery to me for years. Gas pains, and bloating followed every meal, no matter what I ate. I nearly starved myself as I was afraid to eat. Naturally, I lost weight, strength and vitality, and felt miserable all the time."

"My search for relief finally led me to Konjola after many other medicines had failed to do any good. But Konjola was different. The first two bottles brought wonderful relief, and in seven weeks I looked and felt like a different person. Today, I can eat anything I want without the least distress afterward; have renewed strength and vigor and have not felt so good in years."

It is the same splendid story of success wherever Konjola is put to the test and given sufficient time to thoroughly cleanse and stimulate the ailing organs. From six to eight bottles are recommended.

Konjola is sold in Salem, Ohio at The J. H. Lease Drug Co. Three Stores, and by all the best druggists in all towns throughout this entire section.—Adv.

petition at Lehman junior high field, Canton, Saturday afternoon while other schools will be involved in opening meets on following Saturdays. McKinley, with four star lettermen back from its 1929 district championship aggregation, to date looks like the strongest team of this trio, but will be opposed by an array of strong talent in the night relay.

One or two other schools from the Cleveland district may compete in the relay carnival at Springer's invitation and it is probable that the entry list will mount to pass the 20-mark. The meet is rapidly being rated throughout the state as one of the outstanding affairs scheduled during the 1930 spring athletic season.

George Thompson of the colored Y. M. C. A. in Akron, has been secured as chief starter while Davey Williams of Girard, will be referee. The full list of officials for the affair will be announced next week by Springer.

Peter Pund May Attend

Thompson will also officiate with the starter's gun in the Big Ten intercollegiate meet which will be held here on May 7. Harry Blythe, former Mount Union star all-around athlete, will be included in the officials' list and it is possible that Peter Pund, former all-American football center at George Tech, will accompany Blythe to the meet. Pund was mentioned as one of the probable officials at the Big Ten meet held at Alliance Monday night.

Springer plans to have the same group of officials at each of the three outstanding meets scheduled at Reilly stadium. These are the regular district meet on May 17, the Big Ten and the night relay carnival. The Big Ten meet is also scheduled to be held after dark.

Trophies for the relay carnival have been placed on display in the windows of the R. S. McCullough store down town.

It is almost a certainty that this night carnival will become an annual affair in this city. Salem officials are putting forth every effort to insure a classy meet and is completing arrangements to that end.

Athletes of visiting teams and their coaches will be provided accommodations for lunch at the Memorial building.

Clipping, certainly more talented along lines of milk delivery; than pugilism, received a neat posting at the hands of Jack Hart, his skilled opponent. To make the catastrophe complete for the evening, Clipping donned his civilian clothes, started homeward only to find that his roll of \$22 had been stolen from his locker.

## Gigantic Mast For Enterprise

NEW YORK, April 17.—The tallest single spar ever carried by a sailing vessel was shipped yesterday to the Enterprise, a candidate for the defense of the America's cup against Sir Thomas Lipton's Shamrock V.

The huge mast towers 168 feet above the deck, completely dwarfing the hull. An elliptical hollow spar built of nearly 200 strips of Alaskan spruce, glued together, the mast weighs 5,000 pounds. With the mast stepped, it is expected that the Enterprise will get its first test under its 7,583 square feet of sail next week.

## Illinois Moguls Change Ring Rule

CHICAGO, April 17.—With a slight blush of embarrassment, the Illinois state athletic commission has shelved its order demanding that Summy Mandell defend his lightweight championship against King Tut, Minneapolis challenger.

No sooner had the order been issued than Mandell's friends hurried to the commission with newspaper clippings that the champion recently had signed to defend his crown against Al Singer in July. Then sponsors of the Singer-Mandell match clinched the argument by displaying the signed contract.

So the order was rescinded and Mandell was advised to forget it.

## Louisville Makes It Two Straight

COLUMBUS, O., April 17.—The Louisville team today had the jump on the other American Association teams by virtue of yesterday's 5-4 victory over Milwaukee. Rain forced postponement of all the other games. The Colonels now hold first place with two wins and no defeats.

## RELIABLE USED CARS

**It pays to go to the Buick Dealer**

Two used cars may look much the same from the outside. Mileage, model, tires and general appearance may be all about alike.

Yet there may be a great deal of difference nevertheless—a difference in mechanical condition which will soon show up in actual driving.

You have only the word of the dealer to go by.

That's why it pays to go to the Buick dealer. You can rely on what he says. And you may be sure his price is fair.

## Cubs Hard Hit By Big Cripple List

ST. LOUIS, MO., April 17.—Trainer Andy Lotshaw, the big medicine man of the Cubs, was working overtime today.

As the National league champions prepared for their third game with the Cardinals, Rogers Hornsby was still getting attention because of his sore heel, first baseman Charlie Grimm was getting treated for his cracked rib, Pitcher Sheriff Blake had a twisted knee, Lester Bell was getting rub downs for his lame salary wing, Catcher Gabby Hartnett had the thumb taped and some of the pitchers were demanding a lot of attention.

"It looks like a hospital ward, but they're getting better," Lotshaw chirped.

## WEATHER DELAYS START OF TRIBE

CHICAGO, April 17.—Cleveland's Indians face the dreary prospect of performing only one inaugural baseball game this season instead of the customary two, while the St. Louis Browns may get an extra one.

Rain has postponed the scheduled opener between the Indians and White Sox at Comiskey park today. As if it interfered again today, as threatened, the Indians will depart for Detroit and turn over the opening day festivities to the Browns, who start a three-game series here Friday.

The Tigers have played their opener so Cleveland would have left only its home town inaugural against the White Sox April 22.

## Cubs Take Drubbing To Tune Of 13-3 As Card Crew Gleans Many Hits

(By The Associated Press)

Old Man Weather, who has a habit of disrupting early season schedules and causing baseball magazines to mutter dark threats of delaying the start of the next season, has delivered his first severe blow of the baseball year.

Mr. Weather, in the form of rain and cold, wiped off five games from yesterday's major league program, leaving but two contests in the National league and one in the American. And the Chicago White Sox and Cleveland Indians still are trying to stage their opening at Chicago, hopeful of getting it done today before the Indians have to move on.

It might have been better for the National league champions, the Chicago Cubs, if the rainy area had

extended as far as St. Louis. Playing their second game there, the Cubs took a 13 to 3 beating from the rampant Cardinals. Starting in the first inning, the Cards collected 20 hits, six of them doubles and one a home run by Jim Bottomley.

George Fisher, young slugger recently obtained from the New York Giants, led the tirade with four hits, giving him a record of eight blows in nine times at bat for the first two games.

The other National league game gave Cincinnati an even break in two games against the Pittsburgh Pirates with a 3 to 1 triumph. Pete Donohue of Cincinnati engaged in a duel of right handers against Ervin Brame and came out ahead because of the fine support he received. Donohue kept ten hits

scattered and Crite, Ford and Kelly put a quick stop to Pirate threats by completing three double plays. The Reds bunched a pair of their seven hits off Brame for two runs and Walker provided a third with a home run in the seventh.

In the American league, Washington's Senators became the first team to win two games by nailing out the Boston Red Sox, 5 to 4, on the strength of two home runs in the early innings. Sam West, the first man up, got one, then Ossie Bluege cracked out another with two on base. After the third inning, Milton Gaston gave the Senators only two hits, but Bump Hadley kept the box in check by allowing them only six altogether.

## Fight Results

COINCINNATI, O.—Jose Medill, Chicago, outpointed Billy Rose, Cincinnati, (10). Al Gahan, Columbus, O. knocked out Jimmy Sanzone, Cincinnati, (5).

NORMAN, OKLA.—Frank Crider, Norman, stopped John Naden, Dallas, Tex., (3).

Vagabond Dreams Come True  
By Rudy Vallee  
Published by the E. P. Dutton Co.

BY RAY SCHILLING

No doubt about it, but what Rudy Vallee and his Connecticut Yankees have stepped into the spot-light. Up to the present time he has used a great deal of diplomacy in "playing-up" to the public and especially the ladies.

But when he wrote his biography "Vagabond Dreams Come True" he forgot that even the ladies will not swallow quite such a lump of conceit. It is a book of 262 pages, composed completely of "I's and me's". In the first place the book is poorly written lacking coherence or sequence of events. You skip blithely from Broadway to Maine, London, and Yale,—1923 follows 1927 as though it were meant to be.

While Rudy says he has a sense of humor we are convinced that he never uses it on himself, never realizing that he might be the one that is being laughed at. According to him the boys in his orchestra have Rudy Vallee to thank for their success—never once are the tables reversed and Rudy thanks his boys for his success. He compares himself with the utmost ease to Paul Whiteman and is firmly convinced that his own melodies will rival Victor Herbert's in time, and maybe they will, but it would be much better form to allow the other fellow to make the statement first.

But even with all the criticisms that the book and Mr. Vallee merit, perhaps it is a good publicity stunt. For you are apt to find yourself tuning in on the Villa Vallee to see if all the things are being done that have been mentioned.

### Today's Pattern

THE stunning model sketched today embodies several new details of the mode. The elbow sleeves finished with graceful flares, the front and back bodice tucks, and the cleverly arranged, low skirt flare, are of decided interest. Note the tucks at the back neck—a detail that improves the fit so much.

Design 1873 is charming developed in flat crepe, Elizabeth or georgette crepe. A plain color or a print might be chosen with equally good results.

This pattern may be ordered only in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 requires 4 yards of 40-inch material.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

## THE HOME KITCHEN

By Jeannette Young Norton

"When I was a little girl I had to take sulphur and molasses in the springtime," said Dolly's mother trying to make that small person accept spinach gratefully as a comparative blessing. Greens in plenty, both cooked and raw, have all the therapeutic values of the old-fashioned medicaments, and though they come in for much scorn, especially from the younger generation, still at their worst they're not as repelling as some of the old-fashioned drugs.

Greens are at their best raw, and there is a considerable assortment that can be eaten in that state. All the lettuce, cucumbers, celery, peppers, radishes and tomatoes. But there is a larger number of greens that have to be cooked—artichokes, asparagus, cabbage, cauliflower, fresh beans, spinach and chard and kale, and the green tops of many root vegetables.

Even their best friends cannot claim that a dish of greens plain boiled is alluring to eye or palate. Although admittedly that's the way to derive the utmost value from them. Adherents of good simple food claim to enjoy boiled greens in just this way—perhaps dressed up with a bit of melted butter and lemon juice, a dash of salt and pepper. Boiled rapidly, with no more water than the few drops adhering to the leaves and stems after thorough washing, any green will re-

tain a distinct flavor, and very pleasant to those who have cultivated a taste for them.

Probably the best way to develop this wholesome preference is along the lines of least resistance. A little dressing up camouflaging, both to the eye and the palate, and from becoming merely used to the dish, eventually a real appreciation of the flavor may develop. For it must be said in favor of greens that they have a larger range of flavor than any other special group. Although asparagus and fennel and artichokes and kale and cabbage are all classed as greens, there is a wide difference in the flavor of each—as there is in practically all of the greens.

#### Meat-Cake Greens

2 cups chopped cooked greens  
1 cup chopped raw meat  
1 cup milk  
1 egg  
1 small onion  
2 tablespoons flour  
1 green pepper  
1/2 teaspoon salt  
1/2 teaspoon pepper  
1/2 teaspoon Worcestershire sauce

Any leafy greens may be used—spinach, chard, kale, beet or turnip tops or chirore. Cook until tender, then chop finely. Melt the butter in a saucepan, add the chopped onion and chopped green pepper, and cook slowly until tender. Rub in the flour, gradually add the milk, stir-

ring until smooth. Finally add the greens, meat, beaten egg and seasonings, and when heated through place under the broiler for a few moments to brown. Serve on rounds of toast as a luncheon dish or with baked potatoes.

#### Pungent Sauce for Greens

To any of the plain boiled greens, either the leafy greens or fresh beans, cabbage, Brussels sprouts or artichokes, and add this sauce:  
2 tablespoons butter  
1/2 cup bouillon or vegetable juice  
1 tablespoon lemon juice  
1/2 tablespoon sugar  
1 teaspoon ginger  
1/2 teaspoon salt  
1/2 teaspoon pepper.

Melt the butter in a large saucepan, add other seasonings and stir together. Then add the cooked vegetables, tossing lightly in the sauce until it is absorbed.

"Surprise" added to the name of a vegetable on a menu card is no longer a surprise, since translated into cooking English it means usually some kind of stuffing. Still, the idea remains a good one. Many prosaic vegetables are made more attractive to the eye and the palate because they are not the same throughout. Outwardly they may appear beet, or vegetable or onion—but from the top there obtrudes another substance, piquing interest.

Many of the lowly vegetables can be glorified into snappy dishes by varying stuffings. Potatoes, onions, beets and turnips among the root vegetables; tomato, squash, cucumbers, eggplant, cabbage among the green. If these vegetables are to accompany a substantial dish, then

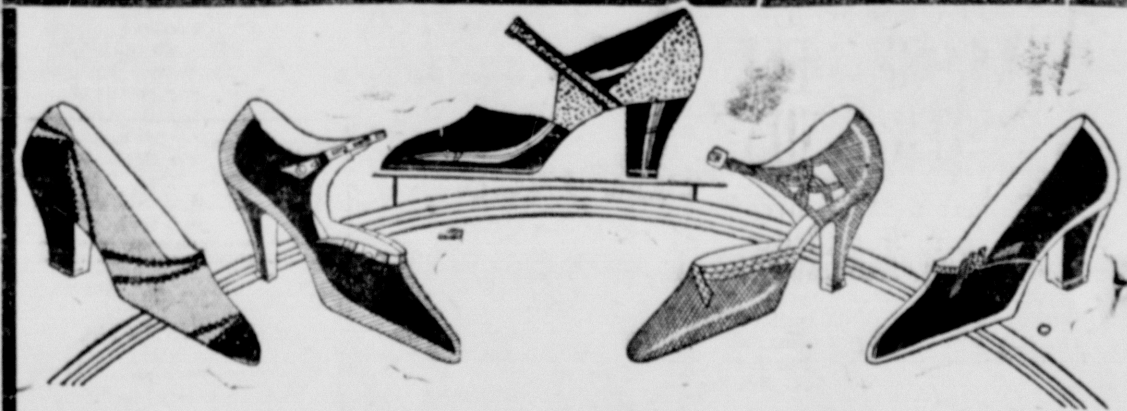

a light stuffing of breadcrumbs or some other vegetable, plus peppery seasonings, will be adequate. But if this is to serve as a main dish, as for a child's lunch or supper, then some substantial ingredients can be added to make the stuffed vegetable most nourishing. A small quantity of meat, liver, fish, nuts, cheese, eggs will make a delicious and filling dish of any of the plain vegetables.

Gladly Endorses Owa-Ton-Na When It Conquers  
Severe Backaches

Mrs. Cora Schwander, 116 Schwalm Ave., N. E., Canton, Ohio, recently told the special laboratory representative how Owa-Ton-Na had conquered illnesses which had caused a great deal of suffering. She says: "Those terrible backaches which went clear up to the base of my brain and seemed to be backaches and headaches combined, are gone. I used to suffer for days at a time and was almost frantic."

"My nerves would get in terrible condition, besides this I suffered so much with indigestion and a bad stomach. Gas would form and make me feel distress for hours after eating. Sometimes my stomach felt as though it were on fire and I would belch up a hot fluid and particles of undigested foods."

"Owa-Ton-Na wasn't long in making a big change in my condition. It put my stomach in good order in a very short time. Food didn't distress me and I wouldn't suffer with belching spells or attacks of gas. Once again I can sit down to the table and enjoy a good meal. My
